

AiM360™

November 23, 2020

Dear FlexiVan M&R Vendors,

We'd like to bring your attention to a few upcoming system changes we'll be implementing on **December 12, 2020**. All M&R vendor procedures that you currently perform with us via either the **M&R Portal (CPMR)** or **CAMS** system will soon be migrated into one new platform called "**AIM360**."

There's not much that will change for you other than a new FlexiVan system interface we're sure you'll find easy to use. All work orders, EDI transactions, reporting and approval processes remain the same. Even your current system user ID and password credentials won't change. FlexiVan's regional M&R representatives will also be available to help you with any questions you may have during the transition.

Stay tuned! We'll be sending you more information about AIM360 in the weeks ahead.

Sincerely,

FlexiVan
